

Learning

Self Respect – Mutual Respect for others – Respect for the environment

“Honour everyone and never do to another what you do not want done to yourself.” (Rule of Benedict 4)

Develop self-confidence, resilience, discipline, generosity, gratitude, compassion, faith, eloquence, and wisdom. Developing the whole person is what really matters and how to face the pressure and pace of modern life.

STABILITY IN RELATIONSHIPS

We encourage everyone to have respect for other people; to listen attentively to each other and to show honesty in all their relationships. Pupils are asked to behave thoughtfully and responsibly, for the good of the community.

DISCIPLINE

The discipline of daily routine helps one to achieve your best and develop your full potential.
