

Year 7 Home Learning - Topic 2

This half term Year 7 will be starting a new topic about the history of the Earth where you will be looking at the rock cycle and learning about geology! If you miss school because you are self isolating, you can use the activities and resources below to continue your geography work at home.

If you have any questions please email Mrs Watson (Head of Geography) at Watson.j3@st-benedicts.org. Alternatively you could email your geography teacher.

Week 1

Follow the link and complete the lessons listed below. These lessons focus on geology and the rock cycle

<https://classroom.thenational.academy/units/geology-5904>

Lesson 1 – What are the UK's main rock types?

Lesson 2 – How does Geology influence the UK?

Lesson 3 – What is the rock cycle?

Total time = 1 hour 30 mins

Week 2

Follow the link and complete the lessons listed below. These lessons focus on geology and the rock cycle

<https://classroom.thenational.academy/units/geology-5904>

Lesson 4 – How does weathering affect rocks?

Lesson 5 – How do we use the different types of rocks?

Self review (to be completed by the student)

What have I learn that is new or what have I practised and got better at?

What have I found more difficult or challenging? Is there anything I am unsure about?

Teacher comment: (To be completed after discussion with student)

**“Geography is the
subject that holds the key
to the future”**

Michael Palin
